Rajasthan Board (RBSE), Pali (Rajasthan)

SKILLS SUMMARY

- **Languages:** C, C++, Dart
 - **Frameworks:** Flutter
 - **Backend & Database:** Firebase, Firestore
 - **API Integration:** REST APIs, Gemini API, OpenWeather API, Google API
 - **Tools:** Git, GitHub, VS Code, Postman ,Cloud Messaging (OneSignal)
 - **Web:** HTML, CSS, JavaScript
 - **Concepts:** State Management(Provider / GetX), Responsive UI, Clean Architecture – MVVM & MVC, API Handling, Debugging, SDLC
-

EXPERIENCE

1. Flutter Developer: VolanSoft Technologies Pvt. Ltd., Jaipur

August 2025 - Present

- Developed and maintained production-level Flutter applications with scalable architecture
- Integrated RESTful APIs and implemented real-time data synchronization
- Implemented real-time location tracking using Google Maps API, enabling accurate user positioning and live updates
- Improved app performance by reducing load time and optimizing API calls
- Collaborated in a cross-functional Agile team with backend developers and UI/UX designers
- Implemented push notifications using OneSignal for real-time user engagement
- Debugged and resolved critical issues, improving overall app stability

2. Flutter Developer Intern: Coreteams Softech Pvt. Ltd., Jaipur

June 2025 – July 2025

- Built reusable UI components and modules in Flutter
 - Fixed bugs and improved performance for smoother app experience.
 - Assisted in debugging, testing, and performance optimization
-

PROJECTS

1. Helpify – The Home Service App

April 2025 – June 2025

- Technologies used: Flutter, Firebase, Firestore, Dart
- A dual-panel app for consumers and providers offering secure bookings, availability tracking, and real-time updates.
- Used Firestore for real-time database updates

2. AI Genie - The Assistant App

December 2024 – January 2025

- Technologies Used: Flutter, Dart, Gemini API.
- Built an AI-powered mobile assistant using Gemini API
- Implemented natural language processing features for smart recommendations
- Designed a responsive and intuitive UI for better user interaction

3. Climate Cube - Android Application

July 2024 -August 2024

- Technologies Used: Flutter, Dart, OpenWeather API.
- Integrated OpenWeather API for real-time weather data fetching
- Developed a clean, user-friendly UI using Material Design principle

4. E-commerce Website | glamlook.netlify.app/

June 2023 – July 2023

- Technologies Used: HTML, CSS, JavaScript.
 - Designed a modern, responsive UI for an e-commerce platform with intuitive navigation and clean product layouts.
-

CERTIFICATIONS

- App Development using Flutter – Learn & Build (2024)
- MERN Stack Development – Learn & Build (2023)
- Python Programming – Internshala (2023)
